Definitions

The Customer: the individual or corporation acting in performance of their own business, commercial, craft or professional activities, or their agent, who purchases the Products sold and manufactured by AGVGROUPO SRL.
AGVGROUPO SRL: the company with registered office in Via Contarella 17, 42019 Scandiano (RE) - Italy, which sells the Products.

Order Confirmation: written notice of confirmation of the product ordered, sent to the Customer of AGVGROUPO SRL.

Price: the one indicated on the order confirmation.

Product: the one indicated on the order confirmation. The product characteristics illustrated in the catalogue are not binding. We reserve the right to make all changes we consider appropriate, without any prior notice.

Contract: the one concluded between AGVGROUPO SRL and the customer through exchange of the order and order confirmation, governed by these general terms of sale and warranty.

Efficacy

This Contract is applied to this sale and all subsequent ones between AGVGROUPO SRL and the Customer, without prejudice to subsequent signing of other and different terms of sale and warranty. Sending of an order implies acceptance of the Contract.

Orders

Orders are accepted solely and exclusively in writing (e-mail and fax are the same) and become binding for AGVGROUPO SRL and between the parties when AGVGROUPO SRL sends the order confirmation to the Customer. The order confirmation must be checked immediately by the Customer (within and no later than 24 hours of receipt), who must immediately notify AGVGROUPO SRL in writing of any error found.

Failing this, after 3 working days, the indications contained in the order confirmation will be applied to the Contract.

An order will NOT be accepted unless it is accompanied by these general terms of sale and warranty signed by the Customer. Subsequent orders, accepted and confirmed by AGVGROUPO SRL through the order confirmation, remain subject to this contract.

Price and payment times

The estimates of AGVGROUPO SRL are only valid if prepared in writing and for the period indicated in them. The Price includes exclusively the goods and services listed and must be intended as net of VAT. Payment must take place in the methods and in the times indicated in the order confirmation.

AGVGROUPO SRL may suspend delivery or fulfilment of the order until payment has taken place, if prior payment has been agreed, or of all other previous transactions in which the Customer is late with payments.

The Customer hereby waives any exception of offsetting between the sums due from it to AGVGROUPO SRL and any other sum for which it is or claims to be a creditor, for any reason, even if liquid and collectable, and even if not disputed and legally collectable.

In the case of late payment, the Customer must pay the interest indicated in Legislative Decree no. 231/2002 on the sum still due, and also the costs for recovery thereof, without the need for formal placing in arrears.

Delivery / Title / Risk

The delivery time indicated in the order confirmation is indicative. Partial deliveries are permitted. The place of delivery is indicated in the order confirmation. The goods travel at the exclusive risk and danger of the purchaser, even when sold carriage free.

Transfer of ownership of the product only occurs on payment of the full price. Without prejudice to what is indicated in Article 1525 of the Italian Civil Code, AGVGROUPO SRL may (without any liability with the Customer) re-enter into possession of the Product.

AGVGROUPO SRL may take legal action to obtain the price, including before transfer of ownership.

If the Customer refuses the delivery without prior agreement with AGVGROUPO SRL, it will be liable for all costs or losses sustained by AGVGROUPO SRL due to said refusal, including the costs of storage until acceptance of the delivery.

Acceptance

On delivery of the Product, the Customer must check and inspect it, and, if necessary, refuse it or indicate defects at the moment of delivery. On expiry of this deadline, the product will be considered as accepted by the Customer. If AGVGROUPO SRL allows return of the product, in exceptional conditions and at its own discretion, this must be returned in its original conditions, with the relative packaging, with a note of return and with the relative proof of purchase; the costs of return will always be paid by the Customer.

Liability

AGVGROUPO SRL will not be held in any way liable for direct or consequential damages or consequential losses in the case of non-functioning or poor functioning of the products, for loss of business, profits, salaries, fees, savings, without prejudice to legal warranties or anything contemplated in these general terms of sale.

AGVGROUPO SRL will equally not be held liable for damages caused during installation of the products to floors, furniture, household furnishings, furnishings and anything else present on the premises, with the Customer acknowledging that is has the precise contractual obligation of arranging prior protection or moving them.

The Customer acknowledges that they have been informed beforehand by AGVGROUPO SRL of the interventions necessary for installation of the Products, particularly the methods and characteristics thereof.

Force majeure

AGVGROUPO SRL will not be liable for any delay in fulfilment of its obligations (included late delivery) if said delay is caused by circumstances beyond its

reasonable control and will be entitled to an extension for fulfilment; examples of force majeure include strikes, problems relating to supply/transport/manufacturing of finished and/or semi-finished products, exchange rate fluctuations, government actions or regulatory actions, natural catastrophes.
If the event of force majeure persists for a period exceeding 2 months, each of the Parties will be entitled to withdraw from the Contract, without any compensation being due to the other party.

Protection of Personal Data

The personal data of the Customer will be processed, kept and/or communicated according to law and the Customer hereby agrees to this in accordance with and under the effects of regulations on Privacy. The Customer may exercise their right of access, correction, deletion and blocking of processing of their data by sending a registered letter to AGVGROUPO SRL.

The Customer may require AGVGROUPO SRL not to use their data for purposes of marketing.

WARRANTY

Area of application

This warranty is destined for Customers operating in their own professional activities, as per the definition in article 1. The sales indicated in these general terms relate to PRODUCTS NOT DESTINED FOR CONSUMERS, as identified in article 3 of Legislative Decree 206/2005. The warranty relates to defects of the Products, intending as such material imperfections of the article, such as to affect in a significant way its usability or value, relating to anomalies of the production, manufacturing, formation, conservation process and operating within the limits and according to the terms listed below.

Duration: AGVGROUPO SRL guarantees the Products for one year from the date of delivery. When it is applied: Without prejudice to the specifications, exclusions or limitations indicated hereunder, or, in any case, referred to in this contract, the warranty is applied to defects of the Products, as identified according to the definition of article 1490, first paragraph, of the Italian Civil Code.

Methods, terms and forfeiture of application of warranty rights

On discovery of the defect, the Customer is required to notify AGVGROUPO SRL in writing, attaching a copy of the sales invoice and the order confirmation of reference and accompanying this with photographic documentation of the defect found. Where possible, the serial number of the defective product must also be provided. The communication must be received in writing by AGVGROUPO SRL within 8 days of discovery, failing which the warranty rights will be forfeit. Warranty rights last for one year. Any intervention of the Customer or third parties on the defective product, if not authorised in writing by AGVGROUPO SRL, constitutes a reason of forfeiture of the warranty.

Exclusions and limitations: without prejudice to what is specified above, the warranty is excluded if the defect is caused or accentuated by improper use of the Product by the Customer or third parties, or by maintenance which does not conform with the manufacturer's indications, or interventions of any kind, including maintenance, on them which is not performed or not authorised by AGVGROUPO SRL.

The warranty is also excluded:

- if, on communication of the defect, the documents and the information indicated in art. 10.4 are not, respectively, attached and provided;

- if the Products have been installed, kept or stored in unsuitable areas for protecting their quality (such as external, damp and poorly aired environments);

- if the Products have not been installed correctly, or have been tampered with, had non-original parts or components or which are not authorised by AGVGROUPO SRL added, have been cleaned with procedures or products liable to damage them;

- in the case of damages which do not derive from original manufacturing defects and/or the poor quality of the materials used, but which are the consequence of traumatic facts or events for the products, such as, by way of example only: blows, scratches, dents, cuts, stains caused by external factors, such as dyes, lacquers and cleaning products;

- for damages from wear and tear caused by normal use of the Products;

- if the Products are not used by the parties for whom they are destined and for whom they are manufactured, namely hairdressers, beauticians, beauty salons and beauty farms.

Specific terms of warranty: The following specific terms of warranty apply, depending on the component or material, as indicated below.

Pumps: These are guaranteed for 24 months from the delivery date. For the chairs, the height indicated is always indicative, since it depends partly on the type of foot chosen. It is recommended not to move chairs with hydraulic pumps by lifting them by the armrests. This operation causes air to enter the pump, causing malfunctioning. In this case, it is necessary to raise the seat up to the maximum height and press the pedal repeatedly to discharge the air and restore normal conditions.

Skay - Vinyl: Skay/Vinyl, particularly white or light coloured, is not guaranteed against damages which do not derive from original manufacturing defects and/or poor quality of the materials used, but which are the consequence of traumatic facts or events for the product, such as, by way of example only: blows, scratches, cuts, stains caused by external factors, such as denim/jeans fabric dyes, lacquers and cleaning products. Any difference in the colour shade of articles or products with the same type of Skay may not be considered as an original manufacturing defect. The cleaning process for synthetic upholstery (SKAY/VINYL) requires use of soapy water to be distributed using a sponge or damp cloth. Chemical products may irreparably damage synthetic upholstery, as may use of cleaning equipment which is too hard or rough. AgvGroup is not liable for damages caused by use of these products or equipment. Padded articles may be covered with material supplied by the Customer. We do not guarantee the quality of the finish if the material is supplied by the Customer.

Painted parts: Damages which do not derive from original manufacturing defects and/or the poor quality of the materials used, but which are the consequence of traumatic facts or events for the product, such as, by way of example only: blows, dents, scratches, cuts, stains caused by external factors, such as dyes, lacquers and cleaning products, are not guaranteed. Any difference in the colour shade

of articles or products with the same type of paint may not be considered as an original manufacturing defect.

Aluminium parts: Damages which do not derive from original manufacturing defects and/or the poor quality of the materials used, but which are the consequence of traumatic facts or events for the product, such as, by way of example only: blows, scratches, dents, cuts, stains caused by external factors, such as dyes, lacquers and cleaning products are not guaranteed. Any difference in the colour shade of articles or products with the same type of aluminium parts, or any imperfections of the surface due to porosity of the material, may not be considered as an original manufacturing defect. Do not use abrasive cleaning products to clean aluminium components.

Electrical equipment: Electrical parts and electrical equipment (excluding neon lights, leds and bulbs). These are covered by the general terms of warranty, provided the damage is not caused by sudden changes in voltage which exceed the limits indicated by CE regulations (220/240V, 50hz, +/- 10%).

Neon lights, Leds and Bulbs: These are not covered by the general terms of warranty, since they are consumables. On delivery, solely compliance with the temperature, colour and chromatic yield parameters indicated in the specifications according to the catalogue of the principal manufacturers is guaranteed (e.g. Philips catalogue, paragraph 12). The Customer is therefore required to conduct an immediate check on the components indicated in this paragraph and, where deviations from said specifications are found, is required to notify AGVGROUPO SRL within 8 days of receipt of the goods; failing this, the Customer forfeits the right to invoke said deviation. The terms of warranty exclude normal wear and tear of articles due to use and the Customer declares they are aware of this, hereby waiving any claim on this, and that, with passing of time, neon lights, leds and bulbs may present deformities of colour or stop working.

Glass and Mirrors: Damages which do not derive from original manufacturing defects and/or the poor quality of the materials used, but which are the consequence of traumatic facts or events for the product, such as, by way of example only: blows, dents, scratches, cuts, stains caused by external factors, such as dyes, lacquers and cleaning products, are not guaranteed. AgvGroup specifies that correct installation of the mirrors requires them to be attached to the bearing structure with silicone. AgvGroup is not liable for damage to mirrors if they have been installed without using this procedure.

Washbasins and sinks: Damages which do not derive from original manufacturing defects and/or the poor quality of the materials used, but which are the consequence of traumatic facts or events for the product, such as, by way of example only: blows, dents, scratches, cracks, stains caused by external factors, such as dyes, lacquers and cleaning products, are not guaranteed.

Taps, showers and hoses: Taps are guaranteed for 3 years, showers and hoses for 6 months, ceramic cartridges for 1 year (all assessed on the basis of the hardness of the water where the product has been installed, with it remaining understood that an approved water softener must be installed upstream of the system).

AGVGROUPO SRL intervention methods: AGVGROUPO SRL will examine the product and will assess, at its own unquestionable discretion, whether or not the problem is covered by the AGVGROUPO SRL warranty, through its own intervention service or through an authorised assistance partner, and, following examination, agrees to replace or repair items which are defective at origin, which will be returned ex works.

If sending of SRLre parts is requested, the purchaser will be responsible for the transport costs and relative risk. In any case, the warranty does not cover supply of labour, or any damages suffered by the purchaser. The replaced items will become the property of AGVGROUPO SRL. If the article is no longer on sale at AGVGROUPO SRL, it will arrange an appropriate replacement. AGVGROUPO SRL, at its own exclusive discretion, will decide which replacement is to be considered as appropriate.
